Namakkal,Tamill Nadu | Email: mr.smart2005ak@gmail.com | **LinkedIn:** [linkedin.com/in/aron-k-854559390](https://www.linkedin.com/in/aron-k-854559390)
Phone: 8754865808 | **GitHub:** github.com/mr-Arun-2006 | **Portfolio:** [Arun K — Data Scientist & FinTech Engineer](#)

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering Student Honors in AI and Machine Learning, with hands-on experience in Python, SQL, data processing, and machine learning. Skilled in building data-driven applications, REST APIs, and end-to-end projects using modern tools and frameworks. Interested in Data Engineering and Financial Technology.

EDUCATION

B.E. - Computer Science Engineering & Honors in Artificial Intelligence and Machine Learning
Sengunthar Engineering College -Thiruchengode. CGPA - 7.7 (2023 to 2027)

HSC - Kandaswami Kandar Boys Higher Secondary School (percentage -70%) (2021 to 2023)

TECHNICAL SKILLS:

Languages: Python, SQL, R

Data & ML: Pandas, NumPy, Scikit-learn, Data Cleaning, Feature Engineering, Machine Learning

Backend & Tools: FastAPI, Flask, REST APIs, PostgreSQL, Docker, Git, GitHub, Excel

PROJECTS:

MarketDx – Indian Stock Market Diagnosis & Intelligence Platform - **Github link** - [mr-Arun-2006/Diagnosis_Xpo](https://github.com/mr-Arun-2006/Diagnosis_Xpo)

Python • FastAPI • PostgreSQL • Redis • Pandas • Docker • REST APIs

- Solved the problem of **manual and fragmented stock-market analysis** by building an automated NSE/BSE market diagnosis platform.
- Developed a system that processes market data and combines **17+ technical indicators and market patterns** to generate a consolidated stock diagnosis.
- Built REST APIs with **FastAPI, PostgreSQL, and Redis** to organize, store, and efficiently access market data.
- Containerized the complete application with **Docker Compose** for consistent deployment.

Trado – AI Trading Analysis Platform - **Github link** - <https://github.com/mr-Arun-2006/TradO>

Python • Flask • Machine Learning • Pandas • Angel One Smart API • Plotly

- Solved the problem of **separating market analysis, prediction, and strategy testing across different tools** by developing an integrated trading analysis platform.
- Integrated **Angel One Smart API** for market data and automated technical analysis.
- Developed a **Random Forest prediction model** and backtesting functionality to evaluate trading strategies.

INTERNSHIP EXPERIENCE:

Machine Learning Intern – NxtGen Instruments

- Prepared and preprocessed datasets for **ML model training** using Python.
- Supported **ML model development and API integration** for AI applications.

TECHNICAL EVENTS & COMPETATIONS:

- **WINNER** - Idea Quest Competition

CERTIFICATION :

Prompt Engineering - LinkedIn Learning
SQL - simplelearn
Internet of Things - NPTEL
